### Did you know?

Did you know that TROPIMUNDO was the first Erasmus Mundus programme to offset the carbon emissions caused by its compulsory student and staff mobility? In the meantime it has become an annual tradition.

## Welcome word from the Programme Director

TROPIMUNDO is proud to announce that its Erasmus Mundus Joint Master in Tropical Biodiversity and Ecosystems has retained the Erasmus Mundus excellence label for this and the next two academic intakes, while applying for a new European Commission funding scheme skills in an era marked by a triple crisis of endangered tropical biodiversity, loss of ecosystem functionality and global change.

Currently, **13 Mundus tropicalis VLIRUOS ICP-Connect scholarship holders** from Ecuador, Peru, Bolivia, Cuba, Uganda, Tanzania, Kenya, Madagascar, Indonesia, and the Philippines are participating, alongside students from the USA, Colombia, Brazil, Spain, France, Belgium, and Germany. The two *Mundus tropicalis* trajectories running through the Technical University of Mombasa (Kenya) and the University of the Philippines Diliman, along with the other Trajectories in Colombia, Senegal, Cameroon, Kenya, Reunion Island, Sri Lanka, Malaysia and New Caledonia, aim to train future scientists, conservationists, restorationists, managers, and policy-makers from both the global south and north. The programme continues to focus on strengthening tropical ecosystem functions, goods, and services through excellent education, research, professionalisation, networking, and capacity-building in response to the triple crisis of biodiversity loss, ecosystem degradation, and global change.

In 2026, TROPIMUNDO will celebrate a deeply meaningful milestone: the **10th edition of the Lorenzo Borella Memorial Award**. This emotional anniversary honours a decade of commitment to Lorenzo's legacy and the values he stood for, making it a moment of special reflection and awareness within the programme. Starting September 2026, TROPIMUNDO will shift to academic-year calendars. The next calendar will span the 2026-2027 academic year, from September 2026 to August 2027, meaning we will return earlier than usual.

A banded mongoose is standing upright in a grassy field. The mongoose has a brown and grey striped pattern on its body and a reddish-brown nose. It is looking directly at the camera with its front paws crossed in front of its chest. The background is a soft-focus field of tall grass and some dry branches.
